

Press release

ONE LOGIC Ltd.

Unlock Value with Turnkey Data Products.

Our expertise in a nutshell: We transform vast volumes of data into entrepreneurial value—at high speed with our agile creative teams. To this end, we use our ONE DATA Cartography enabling technology, a range of end-to-end data products, and the know-how of our data science and artificial intelligence (AI) experts. The result? AI solutions that our customers can profit from daily.

ONE LOGIC was founded in 2013 and is a **leading enterprise for the use of AI**. The company goal is to empower customers to monetize data quickly and sustainably, while digitalizing their business model. We achieve this through a unique combination of **turnkey data products** which transform data into tangible business value, and the accompanying expertise of **our highly knowledgeable data science and AI specialists**. As a result, users in all phases can achieve high-quality, value-adding, productive, and scalable end-to-end applications (so-called data products) and establish innovative business models more quickly.

As an agile provider of AI-based data products, ONE LOGIC uses the latest technologies and algorithms from the fields of machine learning, deep learning, and AI. Through collaborations with companies and universities, ONE LOGIC is also actively involved in the research and development of innovative data-based solutions—thereby accelerating comprehensive digitization in companies. Yet the primary focus is always on sustainability and a 'greater good': With its data science expertise, ONE LOGIC enables the creation of efficient AI solutions that add tangible value and make a positive contribution to society.

ONE LOGIC is owner managed and the top-tier is made up of founder Dr. Andreas Böhm, Dr. Stefan Roskos, Christian Aumüller, and Prof. Dr. Andreas Pfeifer (ppa.). The company currently employs around 300 members of staff who work on cutting-edge software and consulting solutions across four locations in **Passau, Munich, Frankfurt, and Zurich**. The team is always growing but retains a firm focus on specific industries, including production, retail, automotive, pharmaceuticals, and biotechnology.

The current investor, Opti Invest green GmbH, was recently joined by Salvia GmbH—an investment company headed by Helmut Jeggle, who has been active as an early-stage investor in BioNTech SE since 2017.

Selected Data Products from ONE LOGIC

ONE DATA Cartography

ONE DATA Cartography | [LINK](#) →

Provides the perfect starting point for data usage. Subsequent value-adding data products can be created rapidly, and overall data governance perfected with AI.

ONE DATA Demand Sensing

ONE DATA Demand Sensing | [LINK](#) →

Determines future demand—and optimizes the value chain accordingly. Our product has been proven to provide highly reliable and individual forecasts.

ONE DATA Audit

ONE DATA Audit | [LINK](#) →

Accelerates internal audits. This data product monitors all anomalies in ERP systems—even in unstructured data. This greatly reduces manual effort.

ONE DATA Golden Record

ONE DATA Golden Record | [LINK](#) →

Tracks data traces across system boundaries and links the right data sets via AI—providing an ideal foundation for smooth business process that generate value.

Milestones and Successes
